Inclusion in Action
The Frazer Center, a nonprofit 501(c)3 organization, is an inclusive community in Atlanta, Georgia where individuals of all abilities gather, learn and flourish together. Since our founding in 1949, we have helped thousands of children and adults with developmental disabilities such as cerebral palsy, spina bifida, Down syndrome, and autism spectrum disorders learn to become as independent as possible.

Our Child Development Program prepares children of all abilities for kindergarten and develops lifelong learners. Our Adult Program, accredited by the Georgia Department of Behavioral Health and Developmental Disabilities, is designed for adults with developmental disabilities such as cerebral palsy, spina bifida, Down syndrome, autism, and schizophrenia. We help people at all levels of ability and developmental disability to grow, contribute, and lead fulfilling lives. The Frazer Center is an inclusive community in Atlanta, Georgia where people at all levels of ability and disability gather, learn and flourish together.
ADULT PROGRAM
Three of our adult participants joined Executive Director Paige McKay Kubik in completing the My Voice, My Board, My Participation training program through the GSU Center for Leadership in Disability. Many of our adult participants took part in five self-advocacy events over the summer, meeting with legislators about the importance of Medicaid. The adults elected a president of their advocate advisory committee and made recommendations to Frazer on improving facilities and programs.

CHILD DEVELOPMENT PROGRAM
Our Children's Program, with help from an MBA consulting team from Georgia Tech, took a long look at how we strengthen our services for children with special needs and reach the children who need us most. The result was an increase in enrollment of children with diagnosed disabilities, more specialized training for our staff, and broader and deeper services to support inclusion so every child achieves their full potential.

THE GARDENS
Thanks to a bequest from the estate of Charles Crawley and a grant from an anonymous trust, Cooper Sanchez led a garden re-design for a fresh, more formal ceremonial space. Proceeds from the rental of the Cator Woolford Gardens support ground maintenance and programs at Frazer.

VOLUNTEERS
Our Friends of Frazer Forest volunteer group continued to grow as our partnership with Trees Atlanta went into full swing this year with the mission of removing invasives from our old-growth forest. We had 128 individuals from companies such as Deloitte, Ernst & Young, and Sherwin Williams spend 672 volunteer hours by helping with building, forest, and garden maintenance.
